

## The facts about about Invisalign® in one spot.

Invisalign® is practically invisible and therefore an excellent alternative to conventional full braces. Hardly noticeable, no metal, wires or rubber bands.

Invisalign® looks back on more than 15 years of success and about 3 million happy patients.

Invisalign® is available for children, teenagers, adults.

Clear dental trays align your teeth making them beautifully straight. Straight teeth without the disadvantages of conventional braces.

## Advantages compared to conventional full braces

- :: You can remove the Invisalign® aligners any time (for cleaning or special occasions)
- :: Invisalign® aligners are practically invisible.
- :: Over the course of the treatment, it requires fewer visits and shorter appointments.
- :: Less pressure is applied to your teeth.
- :: Your lifestyle will hardly be affected at all.
- :: No irritations due to metal wires and brackets

## What can be treated?

### **Crowded Teeth**

When teeth are crowded, they do not have enough room on your jawbone. Teeth move and crowd together.

### **Gapped Teeth**

When there is too much space between teeth, we refer to these as gapped teeth.

### **Crossbite**

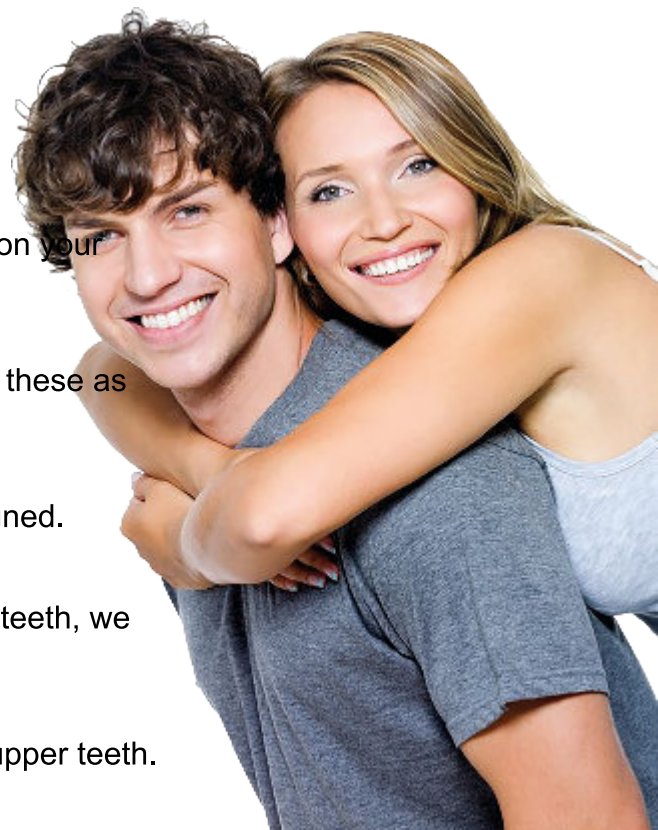

In cases of crossbite, the upper and lower bite are misaligned.

### **Overbite**

If the front teeth protrude substantially beyond the lower teeth, we speak of overbite.

### **Underbite**

Underbite is when the bottom teeth protrude beyond the upper teeth.

## How Treatment Works

The Invisalign® treatment is structured simply, does not take long and is efficient and effective. To give you an idea about how treatments work, we have put together a general description of the treatment steps. It usually takes just 3-6 weeks from the first consultation to the first day of treatment.

### 1. Consultation

During your first consultation, we will evaluate your current situation and speak about the options, how treatment works and questions you may have. At no cost to you. This consultation is informational and doesn't require any future commitment from you.

### 2. Initial Diagnosis

If Invisalign is right for you, diagnostic documentation will be prepared for you. This includes imaging, x-rays and modeling of your teeth. Afterward, a treatment plan is created in which the exact cost and scope of the treatment is explained.

### 3. CEREC Scan

At the second appointment, your mouth, jaw and teeth are scanned using the CEREC Scanner. The CEREC Scanner is unbelievably precise, so you can expect a perfect outcome. KFO Nuremberg Group Practice for Orthodontics has direct access to Clincheck so that you get results back almost in real time - no waiting necessary.

### 4. Clincheck

Thanks to state-of-the-art 3D rendering software, we help you take a look into the future. Using a sophisticated computational methods, our 3D software can simulate and model the development of your treatment in the future. This way, you will know exactly how long your treatment will last before it begins.

### 5. Official Offer

If you are happy with the outcome of the Clincheck, we can order your aligner trays. As soon as the aligners arrive, we will inform you and invite you to your next appointment.

### 6. Trays/Aligners

Now it is time for your first aligner. You will learn how easy it is to use the aligner and will be invited to a new checkup appointment in four weeks. You will receive two aligners to use for this period of time.

### And Afterward:

Your treatment will continue on an individual basis for you. The entire treatment period can consist of about 7-18 months. The aligners should be worn 20-22 hours each day.

## Treatment Costs

We want Invisalign® treatments at KFO Orthodontics Nuremberg to be affordable for anyone. Therefore, we offer different payment options.

### :: One-Time Payment

Pay the entire cost of treatment in one lump sum. This is convenient if you prefer to not have regular payments. You will get a fixed price that you can pay at one time.

### :: Step by Step Payments

As the treatment goes on, you can conveniently pay step by step. Lets you avoid one lump sum that needs to be paid all at once, keeping you financially flexible. You can make payments step by step.

### :: Payment in Installments

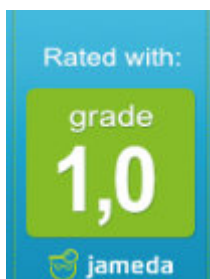

We also offer you the option of making monthly payments. With zero percent interest. You simply make a one-time initial payment and then monthly payments of approximately 75 euros a month thereafter. There won't be any additional fees or interest to be paid.

No hidden costs and no surprises! No matter which payment model you choose, there will not be any extra fees or interest.

## The cost of treatment includes:

- :: All checkups during the entire treatment period
- :: Any necessary corrections during the treatment
- :: Aligners
- :: Upon request, you will receive fixed retainers (stabilizers) made of white gold.
- :: All repairs and adjustments
- :: Checkup after 2 years
